

Julie Pearse

Julie Pearse is the Clutha District Council's District Development Manager. Julie has been involved in setting up a webpage that brought together much of the information that local community groups often sought out.

“Links currently on the page give the opportunity to view community development projects in Canada, England and Australia. Often great ideas can be translated from a national to a local situation and so the opportunity to share links and information can be vital to an innovative and enterprising community sector.”

Julie was also actively involved in the Clutha District Council providing a Youth Development Partnership Fund which provides an opportunity for the Ministry of Youth Development, territorial authorities and young people to work together to provide new and innovative local youth development projects.

Previously Julie worked as a government adviser on community economic development projects in Otago helping many communities.
